

"The results were a miracle for my daughter"

I have seen a miracle with my daughters hair growth. I started seeing white hairs a week or two into using product and by the end of the three months she had two inches of hair in her bald spots. We have seen no new spots since finishing our three month supply, which was completed 2 months ago. We never missed a day. We thank God every day for our results and leading us to Mr Gonen. Please see attached pictures of progress and the final results.

I would not mind at all if you wanted to use her photos. We are so thrilled with the results and again thank God for helping us to find you. We are so grateful for this product and for her getting to start kindergarten with a full head of hair. Her hair continues to look beautiful and is growing all normally over her entire head.

I would encourage anyone dealing with alopecia to give this product a try. The results were a miracle for my daughter.
