

## Hair Up Treatment Progress

I have attached the five original photos of my scalp before I started your hair up treatment about 5 1/2 months ago.

Since then I have experienced great results with 4 out of the 5 patches grown back (photos 1-5). The only patch yet to grow back fully is the one back left of my head, behind my ear. This was the worse patch which got to 55mm in diameter. After 3 months I saw little improvement, but now it has reduced in size to 40mm and has good fine blond grow over it.

I am hoping the last 3 month course I have purchased will be enough to fully regrow the remaining patch.

I still have bald patches on my face, hopefully these will grow back in time.

I am very grateful of your fantastic product and would recommend it to any Alopecia sufferer.

Thanks again

Regards

Mike Tyson , New Zealand
